Raven's Enhanced Support Service

For those over 55

Finding the best fit for you

Raven are fully committed to make ageing a positive experience. We understand how important it is to our resident to live well and independently.

The Enhanced Support Service is a range of support packages offered to ensure that tenants who are over 55 years can access the support they need to continue living independently in their homes.

Raven recognises that each resident is an individual, and for this reason, each plan is tailored to your specific needs. Ensuring that the support you get is the support you need.

What can I expect from this new Enhanced Support Service?

You will be assigned a Support Coordinator who will look after you.

Depending on the service level you select, your Support Coordinator will be the person who contacts you regularly, conducts home visits and works with you and your support network to ensure you get everything you need.

Your Support Coordinator will work with you on a one-to-one basis and will regularly reassess the level of support you may need. They will also make recommendations to assist your independent living.

Your Support Coordinator is here to help you. Their contact details will be provided to yourself and those in your support network so you can access advice and support easily, when you need to.
